## PROFESSIONAL HUNTERS

### MIKYLE AKA "KYLE"

Growing up, my fondest memory of the bush is with my family. From a young age my father has guided me through the territories of the bush, when my father came back from his hunting expeditions all I wanted to hear was hunting stories.

My first realisation for the love of the bush came when I was standing over this massive dugga boy in the heart of the Mopani veld - I knew then and there I was hooked. Fortune favours the dark continent from the Mopani veld to the plateau grass lands of the south, to the highest point of the falls through the forest and rivers it never seems to stop amaze me.

### ADRIAAN AKA "AJ"

For the longest time the only place I've ever felt home was in the bush. Growing up in the plateau grass lands has given me the opportunity to gaze at the animals and learn their ways and tricks. My obsession with the bush started at a young age, being out in the open fields and the smell of the cold fresh air, each breath filling my lungs with adventure my opportunity to prove myself to this unforgiving continent came with the grey ghost of Africa and was it not exhilarating. My love for the bush comes from the journey the stalk the people I meet, the gun powder and laughs the long walks and disappointing ending but when all is said and done and African beast has taken its last breath, I know I'm home.

### S.W

Hunting is not just a job to me. It is my passion. Outside of my family, it is what I live for. I have been hunting all my life, every opportunity I got, I took. Spending all possible time in the bush exploring my love for nature. Growing up on a farm allowed me to spend my free time in the field. I have been doing guided hunts, guided trails and horseback safaris for most of my adult life. Hunting and the African soil is in my blood. It is what I was made for, what I need to do. Not just a job or hobby. Nothing gives me greater joy to see the hunter hold his/her trophy after travelling thousands of miles.

## HOENDER AKA "CHICKEN"

My love of hunting came from my love of nature , to be out there in the bush amongst the wildlife .To experience all of the emotions it has to offer , the calmness ,the rush and the joy of the birds ect. Hunting creates memories ,stories and is also a non stop learning process, all things important to me . "A hunt based only on trophies taken falls short of what the ultimate goal should be " - Fred Bear ... Hunting is love , passion and all in your blood

## JOHAN

I was lucky enough to be raised on a farm in Limpopo, there the bushveld groomed me into the person I am today. I am a friendly character with a passion to show others the beauty nature has given me all these years, may it be a spectacular sunset over the African bush or a buffalo herd in their thousands storming the Selous in Tanzania. The one thing I learned during the last 9 years as a Professional Hunter is that the actual hunt is only a small part of the whole experience, the other is nature in her raw beauty.

## KOOS

I was privileged to grow up in the bush. Hunted from a very young age and lived off the field. It is very satisfying to share my knowledge and experience with clients and give them a real African experience.

It starts as a customer, through the period we become friends and I strive to send them back as family with unforgettable stories and a wonderful experience.

## MOHOLOHOLO WILDLIFE REHABILITATION CENTRE

Situated in the shadow of the majestic "Mariepskop" which forms part of the mighty Drakensberg mountains, our unique Wildlife Rehabilitation Centre is a home to many of South Africa's abandoned, injured and poisoned wildlife. Moholoholo Wildlife Rehabilitation Centre is extremely proud of its efforts in wildlife education in South Africa.

At Moholoholo we are often faced with the difficult decision of what to do with an injured or poisoned animal which will not be able to be released back into the wild. As a result, we have a number of "permanent residents" at the centre and at our own cost we use them as "ambassadors" for their respective species.

## KRUGER NATIONAL PARK

Where nearly 2 million hectares of unrivaled diversity of life forms fuses with historical and archaeological sights - this is real Africa. The world-renowned Kruger National Park offers a wildlife experience that ranks with the best in Africa.

Kruger Park offers a wide selection of accommodation, catering for everyone's budget. It has 12 main rest camps, 5 bushveld camps, 2 bush lodges and 4 satellite camps. These are managed by South African National Parks (SANParks), the governing body of Kruger Park. There are also 15 luxury safari lodges located on private concession in Kruger Park. The deluxe lodges offer guests an exclusive safari experience, where rangers and visitors have exclusive access in open safari vehicles to their private land.

At Theron Safaris we try to accommodate everyone with different accommodation packages to choose from that won't break the bank:

### ACCOMMODATION TYPES: BUNGALOW

A Bungalow comes with either 2 single beds or 3 single beds per unit. Each unit has a shower, basin and toilet as well as your own kitchen. Each unit has a ceiling fan and air-conditioning making it perfect for the summer months, October to March

LETABA ELEPHANT MUSEUM

### ACCOMMODATION TYPES: TENTED CAMP

Tented camps with communal bathrooms and kitchens. It is ideal for visiting the park during the winter months (May to August). Each tent comes with a fridge/freezer, a fan, bedding and towels.

## CULTURAL VILLAGE TOUR

The experience of a cultural village tour is hard to describe. The friendly faces, the over powering sound of the drums, feet creating dusty clouds around you .... Something spectacular.

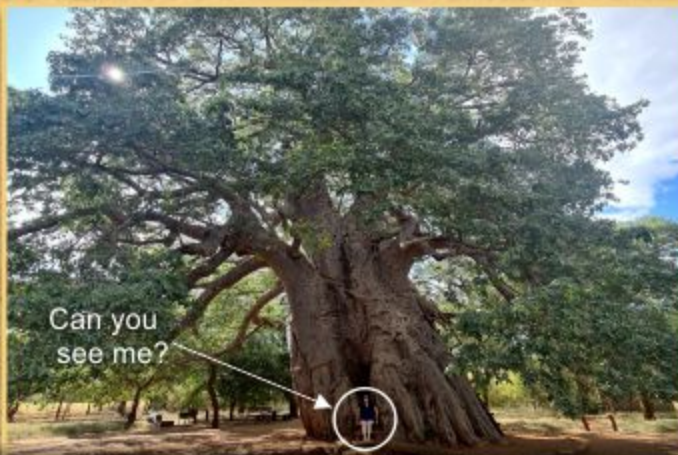

*Jessica  
The Hippo*

When visiting Jessica, you will have the opportunity to feed and touch her as well as give her, her favourite drink: Rooibos tea.

It is an experience of a lifetime to physically touch a hippo's skin!

**GIANT BAOBAB TREE** Superstitions that surround the powers of the Baobab Tree that native legend explains was uprooted by the Gods and shoved back upside down in African soil to cease its complaining hence the appearance of the root-like branches that remain leafless in the sky for most of the year. A crack in the bark densely etched with centuries of lover's initials charmed in heart shapes gives way to a bountiful Baobab belly.
